DJ CHI

Three decades of hypnotic, vocal-driven house — from Kassel's legendary Stammheim to the stage of the Staatstheater.

With over three decades behind the decks, DJ CHI has moved dance floors worldwide with his funky, groovy house and hypnotic vocals. His love for music started young — breakdance, EDM, acid house and trance — before house became his home.

A native of **Kassel**, he refined his groove in residencies such as the legendary **Stammheim** and carried it far beyond the city: festivals like Love Parade, Nature One and Time Warp, and clubs including Tresor, U60311, Distillery and Kater across Berlin, Cologne, Hamburg, Munich and Frankfurt.

His current release, **„Your Love EP“ on Jackfruit Traxx**, is a 90s-style house basher with a hypnotic vocal, garnished by a remix from Nils Ohrmann. Earlier releases on My Favorite Freaks Music and Jackfruit Recordings — collaborations with M.in and Dompe — earned recognition from artists such as Claptone.

Today he is a resident at the **Muuuhnlight Festival** and the **Familienfeier** events at Graf Karl, and in 2026 he took the decks as the live DJ of **„RAVE“ at the Staatstheater Kassel**. The Stammheim era lives on in a documentary and in Jasmin Moll's novel „Wir waren Schall und Rauch“ (2025).

„He managed to turn mixing into a form of art.“
